PIONEERS BRAVE GLADES HORRORS

Sports Writer on Chicago Tribune Visits Lake and Gives His Impressions

Westbrook Pegler, a sports writer on the Chicago Tribune who came to Florida to report the prize fight at Miami Beach, had an article in the Tribune of March 12 on "Pioneers Brave Glades Horrors To Win A Living." After describing social conditions at the beach resorts he said:

"I realize a world of strictly proper activity would be very far-fetched and would not vote for such a rearrangement, but nevertheless there is a virtue about the productive enterprise of the Everglades farmers which, considering the dangers and risks of their life, seems to reprove the luxury and rapacity of the shore.

"These Everglades pioneers make so little, do so much. The risk of their night club, shine whiskey their champagne; no hand boiled short corn over flaming back the blue radiance of the jungle moon in the Everglades at night, the southing and upblowing of the steam dredge in the gondoliere's song on their irrigation canals, and life is so much more frisky than here the hyacinths growing in the ditches is a nuisance, clogging the ditches and the beans potatoes and cabbage.

"Lake Okechobee is at once a means of existence and a threat of destruction. The water in the bays on some stormy night. The lake is sixty miles long, but the water is so shallow that I went asking questions, it has a depth of four or five feet. The water is so shallow that I went asking questions, it has a depth of four or five feet. The water is so shallow that I went asking questions, it has a depth of four or five feet.

"The following are the new officers for the year: Mrs. H. L. Speer, president, Mrs. C. R. Weathering, vice president, Mrs. W. Thomas recording secretary, Mrs. M. F. George corresponding secretary, Mrs. A. H. Hattick treasurer, Mrs. Rose Wines parliamentarian, Mrs. John Fultz auditor, Mrs. Louis C. Goolbsy press reporter.

Each new officer gave a talk, pledging himself to do his best to help the club and to perform the duties of his particular office to the best of his ability.

The club voted to buy grass seed to plant on the canal bank. Palms and flowers will also be planted.

Prof. H. L. Speer will help the give and garden committee in this work.

The club voted to donate a book case to be used for some of the books of the Everglades Children's Library.

It was voted that the Woman's Club give to the Canal Point P. T. A. the proceeds from next week's show Saturday night, the money to be used toward the fund for the ninth month of school.

Everybody is asked to attend the show Saturday night, March 22, to help the school.

Mrs. Vann, the retiring president, gave a talk, thanking the members who had supported her during her term of office.

The treasurer collected dues for the new year.

After the business meeting, Mrs. Fultz served cake and lemonade to Messdames O'Connor, Dawson, Pond, Gibbs, George, Goolbsy, Jerigan, Hanrick, Mallard, A. L. Free, W. P. Pope, Sims, Spear, Fultz, Thomas, Vann, Weathering and Wines.

The civic and garden committee have charge of the next program at the home of Mrs. Louis C. Goolbsy April 1. All members are asked to bring cuttings for exchange. Everyone is urged to be present at this meeting to hear the civic and garden program.

requirements of farmers in the Everglades, was a caller Tuesday. The pump at a canal on the north side of Belvedere road in West Palm Beach is made in his shop and placed there for demonstration.

R. T. (Bob) Creech, who has been in the upper Glades and lake region ever since he got out of the army, was at Pahokee Monday to business at the bank and being that near Canal Point he came on up to a treat to the time of his day and he developed a method of planting corn and sorghum cane as windbreaks and we want to print an article about the method some day.

County Agent M. U. Mounts has been called in the Pahokee-Canal Point district several times recently. When a man is pretty generally called in as a man who you know is well liked, which is the case with "Red."

C. P. HIGH SCHOOL

The seventh grade gave a party in the school auditorium last Wednesday, March 12. Many games were played. Punch and cake were served to the game. Everybody seemed to enjoy the evening.

The meeting for next month, March 19, will be given by the Young Peoples' Union gave a party at the sugar mill basket school last Thursday night, March 13. Coffee was served with the pies. All pies sold for the benefit of the school.

The committee decided to have a dinner which will be hung in the school room where pupils have the most parents out to the P. T. A. meetings each month.

The meeting for next month will be April 7, so parents all come out and help your child's room win the home last Thursday night, April 7. There will be a program and refreshments will be served.

We are very glad to know that Mr. Johnson is leaving fast. He will be back to school in a few days. Lucy and Heirldis Bell Adkins have two new pupils in school this week.

JOEKS
Miss Young, in science class, Herbs, do you know what a channel is?

Herbert: "Yes, man." Miss Young: "Suppose you try to catch two by tomorrow, and bring them to class."

Herbert: (knowing he had mis-understood): "What, comedians?"

In English class—Harold: "The front of the Canal Point Garage is painted orange. What is the ad-vice in that?" Answer that Jack: "Green."

Allice and Carrie Worth fussing—Carrie Worth: "If you say anything else I'll make you eat your words."

Allice: "Ice cream, cake, strawberries and watermelons."

Reveries Fritchie.

Letters From Readers

Lake Placid, Fla., March 13.
Dear Mr. Sharp:
It is my pleasure to acknowledge the woman's edition of The Everglades News for March 7. May I be permitted through you to congratulate the women who produced the edition, on its comprehensive character and its value as a compilation of historic material regarding the latest development of your region?

I would suggest that a copy be sent to each historic society in the State of Florida and the State Library at Tallahassee for permanent preservation.

Very truly yours,
FLORIDA LAND OWNERS ASSOCIATION,
W. C. Sherman, President.

are interested in keeping in touch with Everglades developments.
Cordially yours,
FLORIDA GROWER,
Marvin H. Walker, Editor.
Ann Harbor, Mich.
March 6, 1930.

My specific interests to be served by Everglades news have to do with the 10-acre tract southwest of Okechobee, one 20-acre tract in Lee county (all south of present drainage district), and three city lots in original Okechobee.

I have owned them since the beginning, paid taxes, and now after 20 years or so they appear to be worth less than half of what I paid for them. If interest and taxes be added the present value I guess to be less than one-fourth of the original cost. My nearest tract is 1/2 miles from the end of the only road, and three or four miles from the nearest canal.

Encouraging, don't you think, for one who thought one time of moving to Florida?

Yours very truly,
M. E. Cooley.

P. T. A. MEETING

The executive committee of the Canal Point Parents-Teachers Association met at the home of the president, Mrs. Rose Wines Monday afternoon. Those present were: Messdames Taylor, Coburn, Sims, Jerigan, Goolbsy and Mr. Bishop.

W. P. Jerigan, chairman of the finance committee, made a favorable report of the work of the committee during the month of school.

The committee decided to have a dinner which will be hung in the school room where pupils have the most parents out to the P. T. A. meetings each month.

The meeting for next month will be April 7, so parents all come out and help your child's room win the home last Thursday night, April 7. There will be a program and refreshments will be served.

SAM COPPER SAYS the time is almost here for you to get some revenue from your land. Many of you have been after me for years to plant it in something that will at least pay the taxes. Until now I could not do so with safety to you, but by next spring an reasonably sure I can, and pay you more than the taxes. It will be some years before you can sell your land at a price to make you come out even, and if my plan succeeds, and I see no reason why it should not, you will not want to sell even at a profit. Roughly, my plan is to incorporate, issue stock for cost saving machinery, and for operating expenses, and plant staple crops, principally corn and sugarcane. If you are a stockholder, and your land is suitable, and I use it, will pay you a fair rental after first year. If your land is not suitable at the time, though it may be later, you can join in on the profit by buying one or more shares. Now let's hear from you, for it depends on you whether I go into it alone on a smaller scale, or on a large scale with you. 311

Our campaign is now on for soliciting subscriptions to erect our personage. This has been on hand for a long time, and it is up to us to put it over. We can easily do it, if we all work together as it is believed that we shall. The opportunity is here to determine what we will do. It is time also for us to keep in mind that our benevolences are new upon us. The annual conference is almost here. Not later than about the middle of June, the conference will be held. If we meet our obligations as a church, we shall have to cooperate with all the other churches in the conference in this matter of getting these benevolences that the interests of the kingdom may be cared for. Then we have had our program planned for some time to have a protracted meeting in May, beginning about the second of Sunday. We are expecting this to be a meeting for the whole church and for every member of the church to help. If we do not work in the meeting, it will be difficult to carry on the work after the meeting so we are looking forward to a cooperative meeting.

THE FIRST COST is only one of the savings in buying a new Ford. You also save on the cost of financing, on accessories you may want and on the cost of operation, replacement parts and service. The economies in distribution are just as important as economies in manufacture in keeping down the price of the Ford. The money you pay goes into increased value for the cars. It is not wasted in excessively high selling costs. On the basis of performance and the inherent worth of every part, the new Ford is unquestionably the greatest dollar-for-dollar value ever offered in an automobile.

Chevrolet announces A NEW SERVICE POLICY

The Chevrolet Motor Company and its dealers are pleased to announce a new service policy—one of the most liberal ever offered on a low-priced automobile.

Put into force as a written agreement given to the purchaser by the Chevrolet dealer when the car is delivered—it offers the following provisions:

- 1 Every Chevrolet owner receives his car from the dealer in perfect condition—thoroughly lubricated, properly adjusted, and ready to operate efficiently from the first mile of ownership.
- 2 Every Chevrolet owner is entitled to free inspection and adjustment of his car at the end of the first 500 miles of usage.
- 3 Every Chevrolet owner is entitled to free inspection of his car every 1000 miles thereafter, so long as the car is in operation.
- 4 Every Chevrolet owner is entitled to free replacement of any part which may prove defective in workmanship or material, within the terms of Chevrolet's standard warranty. This includes both parts and labor.
- 5 Provision number 4 will be carried out by any Chevrolet dealer in the United States. As a result, the Chevrolet owner may travel to any part of the country, with assurance that the guarantee on materials and workmanship will remain in force.

This new policy constitutes proof of Chevrolet's high quality—for such liberal provisions could only be made in connection with a car built of fine materials to exacting standards of workmanship.

Back of this policy, and assuring its successful operation, is one of the most complete and efficient service organizations in the world.

There are more than 10,000 Authorized Chevrolet Dealer Service Stations in the United States alone. Each employs skilled mechanics thoroughly trained at Chevrolet Service Schools. Each has specially designed tools and machinery developed exclusively for Chevrolet service work. And each has on hand, at all times, an adequate stock of genuine Chevrolet replacement parts.

Chevrolet's flat-rate charges, including both parts and labor, are the lowest in the industry on many service operations!

In considering the purchase of a low-priced automobile, think what a service means—in terms of lasting satisfaction, as well as in increased economy.
